SOME PROPERTIES OF MULTILAYERED PATTERNS (OF INFORMATION): Insights from Medieval Architecture

1. Proliferation of interconnected patterns
2. Linking star centers by blue circles
3. Race track forms between new pattern and existing star center
4. Made intense with color
5. Horizontal flip of the tilework to reveal the whole.

- Basic Polygon (tile) for 1st Center
- Basic Polygon for 2nd Center
- Another Basic Polygon for 2nd Center
- Basic Polygon for 3rd Center
- Smallest Polygon (5: the space between tile 5 centers)

Connecting to adjacent star centers
